

Education

Boğaziçi University

Master of Arts in Educational Technology

Istanbul, Turkey

Sep 2026 –

Boğaziçi University

B.Sc. in Computer Education & Educational Technology

Istanbul, Turkey

2019 – 2025

- GPA: 3.64/4.00 (High Honors)
- Graduated as **Department Valedictorian (1st in class)**

University of Cologne

Exchange Student (Erasmus+)

Cologne, Germany

Apr 2024 – Sep 2024

- **Relevant Coursework:** Evidence-Based Education, Transformative Adult Education and Social Movements

Work Experience

Product Manager

Madlen

Istanbul, Turkey

May 2025 – June 2025

- Shipped AI-powered lesson planning tools aligned with IB PYP/MYP and Common Core standards by designing pedagogically grounded LLM prompts; built few-shot prompting pipelines and scraped global curriculum outcomes in Python
- Orchestrated cross-functional development workflows by translating pedagogical requirements into detailed PRDs and technical specifications; managed the end-to-end lifecycle through **sprint planning**, backlog grooming, and ticket prioritization.
- Led end-to-end UI/UX design and prototyping for major platform features; achieved a 40% reduction in teacher task completion time and a **60% decrease in navigation-related support tickets** through data-driven redesigns.
- Developed and prototyped interactive STEM educational games for K-12 students; co-founded **Madlen Jr. Academy** to deliver scripted video series that simplified complex scientific and mathematical concepts through interactive simulations.
- Conducted quantitative analysis of teacher and student platform behavior using SQL and Grafana to generate evidence for product and policy decisions; translated granular behavioral data into actionable insights.
- Aligned AI product decisions with Turkish Ministry of Education (MEB) policy frameworks and international curriculum standards; conducted comparative analysis across education systems to inform product decisions that serve diverse pedagogical contexts.

Executive Operations Assistant

Meddenovo Drug Design

France (Remote)

June 2024 – May 2025

- Designed and prototyped the UI for MEXA, an AI system for cyclic peptide simulation operating at the intersection of frontier AI and biotechnology, applying HCI principles for specialized scientific users.
- Managed multi-stakeholder communications across investors, scientific researchers, and engineering teams, including the development of pitch decks and external-facing materials for venture capital meetings.
- Coordinated between computational chemists and ML researchers to align development priorities with both scientific rigor and commercial viability.

Business Analysis Intern

Arena Computer Ind. and LTD. Company

Istanbul, Turkey

Apr 2023 – Oct 2023

- Performed QA testing for SAP invoicing features across diverse transaction types and resolved an average of 15 daily support tickets addressing user-reported system errors.

Digital Media Specialist

Turkey Open-Source Platform & 42 Ecolè

Istanbul, Turkey

Apr 2022 – Oct 2022

- Created visual communication materials including digital media, print designs, and supplementary content to support curriculum implementation and community engagement.

Social Media Associate - Working Student

Boğaziçi University Corporate Communications Office

Istanbul, Turkey

Oct 2021 – Oct 2022

Skills & Certifications

- **Design & Development:** Articulate Rise 360, Canvas (LMS), Figma, Unity, SketchUp, Adobe Illustrator & Photoshop & Premiere Pro
- **Programming & Data Analysis:** SPSS, C#, Python, MS SQL
- **Languages:** Turkish (Native), English (C1 - IELTS - 7.5), German (B1 - Certified by the University of Cologne)

Projects

Edufy - Startup Project

Advisor: Can Saraçoğlu, Boğaziçi University

Istanbul, Turkey

Sep 2024 – Jan 2025

- Developed a personalized curriculum generator using RAG to automatically select and organize video content based on learner needs.
- Pitched to angel investors and gained admission to Boğaziçi Incubation Center.

Capstone Project

Supervisor: Assist. Prof. Mutlu Şen Akbulut, Boğaziçi University

Istanbul, Turkey

Sep 2022 – May 2025

- **Architected and developed** a courseware in **Unity (C#)**, designed for a 5th-grade science curriculum on the states of matter. Systematically applied **Human-Computer Interaction (HCI)** heuristics and learning sciences principles to maximize engagement and minimize cognitive load.
- **Executed a formal quasi-experimental research study with a sample of 43 fourth-grade students** to empirically validate the courseware's pedagogical effectiveness.

Teaching & Research

Computer Science Teaching Intern

Üsküdar American Academy

Istanbul, Turkey

Feb 2025 – June 2025

- Designed and delivered lesson plans introducing foundational machine learning concepts to develop 9th and 10th-grade IB students' conceptual understanding of artificial intelligence.
- Mentored 11th graders through a robotics module from Arduino circuit design to functional IoT prototypes.

Undergraduate Teaching Assistant

Boğaziçi University

Istanbul, Turkey

Sep 2023 – Jan 2024

- Invited by the course instructor, Dr. Suat Genç (CET431: Project Dev. & Management), to mentor senior project teams through the full development lifecycle.

Coding & Robotics Instructor

Istanbul Metropolitan Municipality (İBB)

Istanbul, Turkey

Sep 2023 – Jan 2024

- Instructed 40+ middle school students (6th-7th graders), guiding their transition from visual block-based programming (Scratch) to text-based Python.

ICT Teaching Intern

Darüşşafaka Schools

Istanbul, Turkey

Sep 2023 – Jan 2024

- Designed and delivered lesson plans on video editing using iMovie for 5th grade students. Researched AR/VR applications for curriculum integration, evaluating tools by subject area and classroom feasibility.

Undergraduate Research Assistant

Boğaziçi University

Istanbul, Turkey

Sep 2022 – Jan 2023

- Assisted Assoc. Prof. Günizi Kartal in validating a computational thinking assessment used to select students for coding and robotics non-formal education programs.

Awards & Scholarships

Dean's Special Award, Faculty of Education, Boğaziçi University

Awarded in recognition of outstanding and sustained academic excellence.

June 2025

Dr. Ali Mümtaz Gürsoy Foundation

Merit-based scholarship awarded to distinguished candidate in the field of learning sciences.

June 2019 - June 2025

Turkish National Agency

Erasmus+ Student Mobility Programme Grant for international academic exchange.

Apr 2024 - Sep 2024
